ABDULLAH MOHAMMED HAZEQ

Full Stack Developer | Founder, ZEQLAR | AI and Automation Solutions | Client Delivery and Operations Leadership

+971 56 400 6697 | ahazeq.mena@gmail.com | linkedin.com/in/abdullahmhazeq | ahazeq.vercel.app | Sharjah, UAE

PERSONAL DETAILS

Visa status: Self-sponsored through my own UAE trade licence. No employer visa sponsorship, quota or visa costs required.
Location: Sharjah, United Arab Emirates | Open to roles across the UAE and GCC
Availability: Immediately available | No notice period
Languages: English (Native / Bilingual) | Urdu (Conversational) | Hindi (Conversational)
Interests: Competitive gaming | Sim racing | Photography | Travel | Badminton | Football

PROFESSIONAL SUMMARY

Full stack developer and founder of **ZEQLAR**, a trade-licensed UAE IT agency, with real-world experience working directly with clients and delivering measurable value to their businesses. UK-accredited Computer Science (AI) graduate holding **Second Class Honours, Upper Division**. I build and ship production web applications and AI systems front to back, from database and API through to interface, and have led operations and live events for a 100+ member organisation. My work spans an agentic pipeline that tripled a client's throughput and was sold across the GCC, a compliance platform that reads Arabic and English documents, live client websites and enterprise IT support at Majid Al Futtaim. I hold my own UAE visa, so an employer takes on no sponsorship cost.

CAREER HIGHLIGHTS

- **Founded ZEQLAR** in Aug 2026, a trade-licensed UAE IT agency delivering AI, automation, web and IT consultancy to clients
- Built and sold an agentic AI pipeline to multiple GCC clients, delivering **3x throughput** and **1,500+ personalised emails in 30 days**
- **Full stack delivery for paying clients**: designed and launched web applications front to back, including QuickQuote, Wajib, msytca.ae and eventimesports.ae
- Resolved **95% of IT incidents on first contact** across **100+ cases** for the entire Majid Al Futtaim Saudi Arabia region
- Promoted to second in command of a 100+ member organisation and **cut on-site event failures by 70%**, leading onsite operations for **SUKIPT 2024**
- Earned a **Distinction** for a deep learning model at **80% validated accuracy**, plus first-author peer-reviewed research

CORE COMPETENCIES

Full Stack Development | AI and Automation Solutions | Client Discovery and Scoping | Data Pipelines | IT Support and Networking | Event Operations | Team Leadership | Vendor and Budget Management

TECHNOLOGY EXPERIENCE

Founder
Aug 2026 - Present

ZEQLAR | Trade-licensed UAE IT agency | Ajman, UAE

- Work **directly with clients** end to end across full stack development, AI, automation and IT consultancy, translating their business problems into working software, then demonstrating and handing it over
- Built **Wajib**, a UAE compliance command centre tracking **8 obligations** including Corporate Tax, VAT, WPS payroll, trade licence and visas, pairing an AI extraction pipeline for Arabic and English documents with a deterministic rules engine that checks every output before alerts are sent
- Built **QuickQuote**, a production AI quotation engine on **Next.js 14, TypeScript and Supabase**, proven by **72 automated tests across 9 suites** including an adversarial suite showing the AI cannot move money, secured with AES-256-GCM encryption and default-deny row-level security
- Delivered client websites to live production, including **msytca.ae** and **eventimesports.ae**, managing scope, build and handover for each

AI Automation Analyst (Freelance)
Apr 2026 - Aug 2026

Self-Employed | Remote | Multiple clients across the GCC

- Increased a Saudi event services client's outreach throughput **3x**, as measured by **5-6 records per minute versus 1-2 manually**, by building a four-stage agentic Python pipeline: exhibitor website scraping, Serper and AI enrichment to resolve domains, contact extraction and AI-drafted outreach
- Built for reliability using OpenAI, Claude and Gemini APIs with automatic local-model fallback when token limits were hit, sustaining **1,500+ personalised emails in 30 days** and a **~70% cut in time per batch**
- Productised the pipeline and sold it to multiple GCC clients, adapting data ingestion to each client's sources, alongside custom Python web scraping and automation scripts

AI/LLM Engineer - Ambassador (Contractor)
Jul 2024 - Dec 2024

Virtuals Protocol | Remote | Kuala Lumpur, Malaysia

- Engineered Python data pipelines scraping Wikipedia and news outlets into **structured JSON**, giving AI characters real-time context
- Configured AI character personas covering personality, voice and context through prompt and persona engineering, iterating against intended behaviour
- Educated **100+ students** as community ambassador, translating technical concepts into plain-language guidance

IT Intern
Sep 2024 - Jan 2025

Majid Al Futtaim (Carrefour) | Riyadh Head Office, serving the Saudi Arabia region

- Resolved **95% of incidents on first contact**, as measured by **100+ documented cases**, diagnosing hardware, software, operating system and network issues across the entire MAF Saudi Arabia region
- Took over a queue where nearly everything was being escalated and resolved the majority in-house within the first week
- Cut repeat escalations by **~30%** by writing a troubleshooting knowledge base handed over on departure
- **Configured, imaged and deployed 100+ desktops and laptops** while building automation scripts in Python, C#/.NET and SQL to replace repetitive manual tasks

EVENTS AND OPERATIONS EXPERIENCE

APU eSports *Jun 2023 - Nov 2025*

University esports organisation (100+ members) | Kuala Lumpur, Malaysia

Head of Operations (Volunteer) *Sep 2024 - Nov 2025*

- Directed end-to-end tournament and event operations covering scheduling, bracket design, rules enforcement and on-site execution for audiences of **200+**
- Generated multiple concepts for every event, then narrowed them down by audience, objective, **budget and cost** before committing
- Planned manpower across **event-day teams of 40+** marshals, desk staff and moderators, securing full coverage and on-time starts
- **Cut on-site operational failures by 70%** by validating PC specifications, network readiness and equipment layout with venue and technical teams before every event
- Acted as primary liaison for sponsors, venue partners, team captains, production crews and university administration while managing budgets
- Served as **Head of Onsite Operations for SUKIPT 2024**, Malaysia's national higher-education games and the first edition to feature esports

League Operations Committee Member *Jun 2023 - Sep 2024*

- Ran player check-ins, lobby setup and coordination for online and on-site tournaments, keeping every stage on time
- Performed pre-match technical checks on PCs, peripherals and network connections, escalating faults before play began

Lead Event Coordinator (Volunteer) *Mar 2025 - Oct 2025*

No Code Collective APU | Tech community | Kuala Lumpur, Malaysia

- Led **end-to-end planning** for a tech community event series covering logistics, manpower planning and team execution
- Built run-of-show timelines, contingency protocols, venue requirements and staffing plans alongside vendor coordination and budget tracking

LEADERSHIP AND MENTORING

- Promoted from committee member to Head of Operations, becoming second in command of a 100+ member organisation across two consecutive years
- **Led a 12-person committee**, running structured onboarding, delegation and performance reviews
- Recruited and trained successor committees, leaving an operating structure that continued after my tenure, with the club later collaborating with **Paper Rex (PRX)**
- **Mentored and educated 100+ students** at Virtuals Protocol on building and improving AI characters
- Manage client relationships directly as founder, from first conversation through delivery and handover
- Presented a data-driven business case to a University COO and Head of School, who formally recognised the work

PRODUCTS AND PORTFOLIO

Personal portfolio: ahazeq.vercel.app
QuickQuote: AI quotation engine, 72 automated tests across 9 suites | quickquote-qq.vercel.app
Wajib: UAE business compliance command centre with AI document extraction (Arabic and English)
Client websites: msytca.ae | eventimesports.ae
Code: github.com/KiritoH4Z3

RESEARCH AND ACADEMIC PROJECTS

Deepfake Detection Framework | Lead Researcher *Feb 2025 - Sep 2025*

Python | TensorFlow | Keras | CUDA | Grad-CAM | Commended by supervisor and second marker

- Achieved **80% validated accuracy** and a **Distinction grade** by designing a spatial-temporal model, EfficientNet (CNN) plus LSTM, trained in TensorFlow with CUDA on Linux
- Used Grad-CAM explainability to catch shortcut learning and data leakage where the model was reading JPEG compression artifacts, then corrected it with augmentation and re-validated

Food Recommendation System Using Hybrid Filtering | First Author *Jun 2024*

JATI Journal, e-ISSN 2600-7304, Vol. 8 No. 2 (2024) | Team of 4 | Python | Natural Language Processing (NLP)

- Published peer-reviewed research combining TF-IDF content-based and collaborative filtering to solve the cold-start problem, outperforming single-method baselines across all evaluation metrics

APU Campus Navigation with Congestion Prediction | Lead Developer *Mar 2025 - Apr 2025*

Python | SQL | Pandas | scikit-learn

- Shipped a Random Forest congestion forecasting model in one month reaching **~70% accuracy** on SQL-backed foot-traffic data, then presented it to the University COO and Head of School

TECHNICAL SKILLS

AI and Machine Learning: Large Language Models (LLMs) via OpenAI, Claude and Gemini APIs | Agentic workflows | Prompt engineering | Retrieval-Augmented Generation (RAG) | Vector databases | AI evaluation and adversarial testing | TensorFlow | Keras | scikit-learn | CUDA | Grad-CAM
Data and Automation: Python (Pandas, NumPy, Matplotlib) | SQL | R | ETL pipelines | Web scraping | Power BI | Excel | Make | N8N
Full Stack Development: TypeScript | JavaScript | Next.js 14 | HTML | CSS | REST APIs | Supabase (PostgreSQL) | Vercel | Docker | Git and GitHub | Java | C | C++ | C#/.NET
IT, Networking and Security: Cisco CCNA (Routing and Switching) | TCP/IP | Windows | Linux (Ubuntu) | Active Directory | Hardware and OS troubleshooting | Device imaging and deployment | AES-256-GCM encryption | Row-level security
Business and Operations: Client discovery and requirements | Solution scoping | Presentations and demos | Event planning and run-of-show | Budget and cost analysis | Vendor and sponsor coordination | Documentation
Tools: Microsoft 365 | Google Workspace | Notion | Figma | Jupyter | VS Code

EDUCATION AND CERTIFICATIONS

B.Sc. (Hons) Computer Science (Artificial Intelligence) *Awarded March 2026*

De Montfort University | Leicester, United Kingdom

Second Class Honours, Upper Division (2:1) | Studied through the APU dual award programme

Bachelor of Computer Science (Artificial Intelligence) *Nov 2022 - Apr 2026*

Asia Pacific University of Technology and Innovation (APU) | Kuala Lumpur, Malaysia

Second Class Honours, First Division, awarded March 2026 | Distinction-grade final year project | First-author peer-reviewed publication

High School Diploma - Commerce and Information Technology *Apr 2020 - Jun 2022*

International Indian School | Riyadh, Saudi Arabia

Aggregate: 81.3%

Certifications: Cisco CCNA - Routing and Switching | IBM Introduction to Software Engineering

DEGREE CERTIFICATES

B.Sc. (Hons) Computer Science (Artificial Intelligence) | De Montfort University, United Kingdom | Second Class Honours, Upper Division (2:1)

DE MONTFORT UNIVERSITY

Abdullah Mohammed Hazeq

has been awarded the degree of

Bachelor of Science (Honours)
Second Class (Upper Division)

having followed an approved programme in

Computer Science (Artificial Intelligence)

3rd March 2026

The Vice-Chancellor of De Montfort University

Registrar (Academic) and Secretary to the Board of Governors

Student ID: 2816632

Bachelor of Computer Science (Artificial Intelligence) | Asia Pacific University of Technology and Innovation, Malaysia | Second Class Honours, First Division

A · P · U

ASIA PACIFIC UNIVERSITY
OF TECHNOLOGY & INNOVATION

With the approval of the University Senate,
the Asia Pacific University of Technology & Innovation
hereby confers upon

Abdullah Mohammed Hazeq

the Award of

Bachelor of Computer Science (Artificial Intelligence)
with
Second Class Honours First Division

Awarded on this 27th day of March 2026

Vice Chancellor

Registrar

A · P · U
